

St Dunstan's Tutor Time Programme 24-25

St Dunstan's tutor time programme is designed to enrich the whole student by focusing on both academic and pastoral wellbeing. Students have one assembly a week, which has been carefully designed for students to cover academic tutoring, stretch and challenge goals, behaviour reminders and wellbeing incentives. The other four days of AM tutor allow students to practise their Maths, focus on their reading and promote fundamental British Values as part of developing well-rounded and upstanding citizens. The PM tutor slot focuses on reflection, enabling students to recognise and record the positives and negatives in their day, and sharing their thoughts and concerns with their tutor.
